K JL- To give you an idea of how much extra work these wrong-sized, light-weight envelopes are taking, I timed myself on packaging and recording four books. Not counting the enclosed letters (press copies) it was not quite 30 minutes. Did it to the TV news, so the actual time in this case wasn't that much. At this rate the once successful broadcast to WWL, with two days of mail and not counting letters, has taken <u>seven hours</u>! I hope for more mail. I'm now making an effort with the LA market, with copies and a letter to five guys Art Kevin recommended. Art broadcast a beeper Sunday. His is a right-wing owned station. I'll have to pick these as I can. Too bad we have not reached the syndicated radio news people. I don't know any. But I'll try to phone Pete Gamble of Mutual when I can. And yesterday's replenishment of Scotch tape cost $7.00! HW 12/3/74
